

Dear House Committee on Environment and Natural Resources:

I live in Rhode Island, and I urge you to support The RI Recycling Reform Act ([H7911](#)). I support these bills because they will protect RI's marine habitats and people from the effects of microplastics and pollution. This bill will help protect RI's marine life, blue economy.

My high school Environmental Studies class has been focusing a lot on the local impacts of plastic pollution. As the Ocean State, we have the responsibility to protect our marine habitats. A large portion of RI's economy relies on the bay and the health of its wildlife.

Thank you for your time and consideration. I sincerely hope you will support these bills.

Sincerely,
Samantha Thomas
