Subject: 2021-H-5923: "For"

Hello,

I am writing to voice my support for 2021-H-5923, the bill sponsored by Rep. Caldwell. With regard to the proposed medical waste facility in West Warwick, it is an egregious error in judgment to allow a medical waste facility to be built so close to a population center without a thorough understanding of its possible consequences for the nearby environment.

Sincerely,
Brian Bennett
North Kingstown
