**Subject:** Oppose HB7225

This bill will destroy small businesses and take away the people's right to freedom and the pursuit of happiness. Vaping has kept me from smoking for over six years. I have none of the harmful side effects of smoking cigarettes like a smoker's cough. I personally know of many other people that have also quit smoking by switching to vaping. These products are not sold to minors. As an adult, why should I not have the freedom of choosing what product that I would like to use. I oppose HB7225
