Subject: RE: H-7495 ATTN: Christopher O'Brien

Hello,

I am strongly in favor of this bill. I have considered gas powered leaf blowers a nuisance for years, and have been frustrated by the noise and pollution they generate. Also, now that I (and many) work from home, the noise comes on almost all days, often before 8am, which I believe is the earliest they should start. This bill makes sense on many levels, please try and pass it!

Kind regards,

Charles Mulkeen
