I urge support of H5529

This bill increases income eligibility for the Medicare Savings Program: from \$1,781/month to \$ 2,445 a month.

Thousands of older Rhode Islanders and adults with disabilities, **trying to make ends meet at this low income**, will be helped by having their Part B premiums paid.

This is a win/win for RI.

Yes, it is a tough year financially. But this bill brings many more Federal funds into the state than it will cost in a State expenditure.

Please pass H 5529.
