Subject: SUPPORT H 5473

Dear Chairman Abney and Members of the House Finance Committee,

I am writing as a small business owner to express my support of H 5473, which seeks to increase personal income tax rates.

Higher taxes on the highest earners are essential to ensuring a fair system that allows everyone to thrive — not just the ultra-wealthy.

Fear-mongering about "scaring away business" has led to a death-spiral of lower taxes, reduced services, and widening wealth inequality that strikes at the heart of our Republic.

I urge you to support H 5473 as we work towards a fair tax program that promotes growth at all levels.

Sincerely,

—Adam
