Subject: Support for HB-5473

I am writing to heartily support HB-5473, which will tax top 1% of income earners in Rhode Island. This will add a valuable resource to the work of the state in providing services that are essential to the citizens of the state, and its infrastructure.

We live in a time of great inequality and high costs. This is a small amount to require of those whose incomes allow them to help Rhode Island in providing for all in the community.

Thank you,
