

To the honorable Members of the House Finance Committee:

My name is Margaret Frazier. As an advocate for farmers in RI for the past 30 plus years, and former worker on a family dairy farm, I am writing in support of H5534, which would allow small and urban farms to receive the same tax exemptions that large farms receive in our state.

Rhode Island has some of the most expensive land prices in the country and therefore, many of our most productive and thriving farms are under five acres. I believe that a farm's tax status should not be based on land size. Given the land prices in this state, there will only be more small and urban farms in the future

This bill is important to me because it will directly impact the financial wellbeing of all farms in Rhode Island.

Sincerely,

Margaret Frazier
