

Hello,

I am writing in support of H6020. As a one-car household, RIPTA is an essential service for my family. Cutting service to RIPTA would hinder our ability to get to our jobs and to easily live our lives in Providence. RIPTA is also essential for many of my friends and neighbors and a core service on which all aspects of our city depend. I urge you to pass H6020 to ensure that RIPTA is funded sustainably and so that it can best serve Rhode Islanders.

Thank you for your consideration.

Sincerely,
Hannah A. Tremblay
