

Dear Chairman Abney and Committee members,

My name is Mike Eng, I live in Cranston, and I am writing in support of Rep. Alzate's bill H6020. The Rhode Island Public Transit Authority(RIPTA) is facing a deficit of \$32.6 million dollars, this deficit is caused from years of underfunding and undervaluing our vital transit system that Rhode Islanders need. My wife and I share a single car, and I rode RIPTA daily to take my son to preschool. I still ride it weekly to take him to and from activities and get to appointments across the state. My wife will take RIPTA to work if I need to take the car for some reason. I bought my house partly because of its proximity to a major RIPTA route. I'm committed to combating climate change, and RIPTA is a big part of making sustainable transportation possible in the state.

Tens of thousands of Rhode Island residents and visitors rely on RIPTA to get where they need to go. Left unaddressed, the cuts to service and economic impacts would be catastrophic. Not only would hundreds of good paying union jobs be lost, countless of working class people who rely on RIPTA would be forced to use expensive alternate means, or just lose their jobs or be unable to access essential services entirely. We don't shut down highways when money to fix them is tight, we shouldn't slash public transportation either. Without the necessary funds to address RIPTA's \$32.6M budget shortfall in 2026, the essential services it provides—such as access to employment, healthcare, and education—will be at risk.

This funding shortfall could lead to service cuts, fare hikes, or reduced operational hours, disproportionately affecting low-income communities and individuals who rely on public transit to live their daily lives. Ensuring that RIPTA's deficit is addressed is not just a matter of supporting an agency—it is a matter of supporting the people of Rhode Island and their ability to thrive.

I urge you to support H6020, to give public transit and the riders who rely on RIPTA a fighting chance, averting a financial catastrophe that would result in massive job losses and an economic death spiral for some of Rhode Island's most vulnerable residents.

Sincerely,

Mike Eng  
Cranston, RI
