

Testimony on Bill H2060

Senator chairman my name is Myles Brawn-Husband. I am writing you today in regards to house bill H2060. I use Ripta and Ride for all of my needs and activities, It is my only way of Transportation. If these funds of 32.2 are not properly allocated I will no longer be able to sustain a happy and healthy life. Like me others will be affected as well, for example the little old lady that rides the bus will no longer be able to work and keep her lights on after he husband died. Thank you for your time.
