

I strongly support the bill H6096 that will stop the movement of the bus hub from Kennedy Plaza. That move of the bus hub would make life difficult for MANY bus riders; I don't know a single person who won't be greatly inconvenienced by it. I realize that there are wealthier people who want to see that change happen, and will make money if it does, but that doesn't justify making life difficult for so many other hard-working people who need to use the busses and are inconvenienced by the move of the bus hub. Please support H6096 to keep the bus hub in Kennedy Plaza.
