

Hello,

Please accept my testimony in support of H-7127, Article 5, Section 6 - Millionaires Tax, for consideration in the House Finance Committee hearing today.

I support Governor McKee's proposal to tax millionaires on their income above a million dollars, but I think the state should go further and tax the the top 1% in RI. Rich people have been getting state and federal tax breaks for decades, yet every day Rhode Isalnders are left to struggle.
