

Chairman Abney and Honorable Committee members,

My name is Daria Phoebe Brashear; I live in the Edgewood section of Cranston. Today I write to you in support of H8202, the Transit Master Plan bond issue

Rhode Island adopted a visionary Transit Master Plan, one which will make progress on a future that will grow the Rhode Island economy while making travel easier without adding traffic or expensive road infrastructure. This bond issue would not only help roll out that plan, it will improve access to RIPTA service for all Rhode Islanders.

Please support H8202 to create a modern, efficient transit service to bring RIPTA and Rhode Island into the future.

Sincerely,  
Daria Phoebe Brashear
