Chairman Abney and Honorable Members of the House Finance Committee,

I am writing on behalf of Rolling Agenda, Jamestown's Bicycle Advocacy Group, to express our strong support for H8298, the proposed bond measure to fund the implementation of the Rhode Island Statewide Bicycle Mobility Plan and completion of bike paths across Rhode Island. It has been 8 years since we last included funding in our Green Bond, and when asked, voters overwhelmingly supported the investment, with 78.9% voting yes.

Safe, well-connected bicycle infrastructure is a sound public investment. Rhode Island's communities stand to benefit in multiple ways: reduced traffic congestion, improved air quality, stronger public health outcomes, and increased economic activity along active transportation corridors. Studies consistently show that every dollar invested in bike infrastructure yields significant returns through tourism, local business activity, and reduced healthcare costs.

Rhode Island already has a proud legacy in this space including gems such as the Blackstone Valley and East Bay bike paths. Dedicated bond funding would allow the state to close critical gaps in the network, improve safety at dangerous intersections, and expand access to communities that rely on cycling for everyday transportation, as well as those of all ages who use it for recreation.

While we work within Jamestown to connect neighborhoods where we can we urge the Committee to support H8298, adding this component to the Green Bond question in 2026 and give voters the opportunity to once again invest in bike paths and in Rhode Island's future — one that is healthier, greener, and more connected. As a community that has no bicycle or pedestrian access to our neighbors, this is very important to us..

Thank you for your consideration.

Sincerely,
Samira Hakki
