

Testimony in support of H7313: Personal Income Tax

Camille Nixon, Warren, RI 02885

Date of Hearing: May 7, 2026

To Chair Abney and the honorable Members of the House Finance Committee:

I support the bill and taxing the top 1% of personal income tax filers, because it would provide

additional income to compensate for programs and funds that were cut by the current federal

administration. Loss of these programs and funds is creating existential hardships for many Rhode Islanders in the lowest income groups, while those with the highest incomes benefit from the federal tax breaks.

Please bring the bill to a vote in 2026.

Thank you very much for consideration of my input.

Best wishes,

Camille Nixon

Warren, RI 02885
