

Hello,

I'm writing to urge support of bill 7313 on wealth tax.

This is a bill that makes sense.

The growing disparity between the “haves and have nots” has grown exponentially and people are struggling. This is not the way life should be for people who are struggling!

Please support this act to help life people out of desperate situations where money causes constant stress.

We're here to help each other and to lift each other up. No one will be harmed by this bill but people will be helped.

Thank you and God bless.

Carol Wilcox
