

**Vrenely Espinosa**

I, Vrenely Espinos am in support of HB-7313 because we need more money in our state to help make food more affordable and medicine at this time is too costly. The people should also have access to medical cards and security in our schools due to violence. Our state also needs more programs as I hope to teach other people how to bake. We need more jobs and for our streets need to be improved.

Sincerely,

Vrenely Espinosa
