

I am Veronika Valois in support of H7597. Please read my letter.

To Whom It May Concern,

I am writing to express my strong support for RIBBA and its request for funding to sustain and expand its critical workforce development programming.

RIBBA plays a vital role in strengthening our community by equipping individuals with the skills, resources, and opportunities needed to succeed in today's workforce. Through its programs, the organization not only supports job readiness and career advancement, but also fosters long-term economic stability for the individuals and families it serves.

Funding is essential to ensuring that RIBBA can continue delivering high-quality programming, retain and support its dedicated staff, and respond to the evolving needs of the workforce. Without adequate resources, the organization's ability to provide impactful services and create meaningful pathways for professional growth would be significantly limited.

Investing in RIBBA is an investment in people. It enables the organization to expand access to training, mentorship, and career development opportunities that empower professionals to grow, advance, and succeed. Just as importantly, it ensures that experienced and committed staff have the support they need to continue guiding participants toward achieving their goals.

I strongly encourage you to consider this request for funding. Supporting RIBBA will have a direct and lasting impact on workforce development efforts and the overall economic health of our community.

Thank you for your time and consideration.

Sincerely,

Veronika Valois
