

Bill H7299
bcarbone@mit.edu

February 14, 2024

Dear Chairwoman Donovan,

I Brenda Carbone am writing to ask for your support to pass bill H7299 to improve patients' accessibility to medical care from licensed Naturopathic Physicians. Passage of this bill is very important to me. I have found the care I receive from the Naturopathic Doctor I see, Dr. Chrysanthi Kazantizis, works hand in hand with my Primary Care Physician. Dr. Kaz, has recommended testing that is not normally ordered by a primary care. The expense was rather steep, having insurance seems like a wonderful way to offset this expense and to make this opportunity available to others. The expense hinders the care I feel I need. Going over the results with both primary care and the Naturopathic Dr. has given me a strong program to improve my health and improving my preventative care.

Thank you for your consideration.

Sincerely,
Brenda Carbone
