Subject: Bill # H7299

Dear Chairwoman Donovan,

I , Denise Petrin am writing to ask for your support of passing of this bill H7299 to improve patients' accessibility to medical care from licensed Naturopathic Physicians. Passage of this bill is very important to me. Thank you for your consideration.

Naturopath Physicians are an important part of my health care ! Especially since it is so hard to find a medical doctor these days . Naturopaths help me to live a healthy way so I do not need as much medical treatment !

Please pass this bill !!!!!!!

Sincerely,

Denise Petrin
