**Subject:** Naturopathic Medicine Bill

Dear Study Commission Members,

I, Kathleen Ballantyne, am writing to ask your support to pass the bill to improve patient's accessibility to medical care from licensed Naturopathic Physicians. I have been helped many times by my Naturopathic doc after western medicine was unable to cure me. Out of pocket costs are prohibited for most people and therefore, it is essential that insurance companies cover this service.

Thank You,  
Kathleen Ballantyne
