Subject: House bill # H-7886 PLEASE SUPPORT

Hello.

I respectfully ask that you support House bill # H-7886.

This bill will ban the sale of cosmetics that are developed and/or manufactured using animal testing.

ABSOLUTELY NO NEED FOR TESTING TO GET DONE ON INNOCENT ANIMALS

We have more than enough technology at this time that animal cruelty is not needed for developing and manufacturing cosmetics.

A violation would be \$1000.00 fine for each offense.

Thank you!!
