Subject: RHODE ISLAND'S CHILDREN DESERVE HELP NOT HARM ACT

To the Committee:

Children are at risk of being lead down a path of destruction by individuals who take it upon themselves to believe there is a transgender advantage in identifying a Male as a Female or Female as a Male . The potential enormous impact to all future personal gains in life are reduced to hardship and regret. Please do not allow this to be taught or imposed on American children here in Rhode Island. I stand with Representative Patricia

Morgan in requesting this bill: 'Rhode
Island Children Deserve Help Not Harm Act' be passed.

Thank You

Kenneth Bolduc
