Please, I implore you to **support House Bill # 7884** to protect our children from irreversible harm. Children do not have the mental capacity, especially when they are in crisis, depressed, suicidal or just angry at their parents or the world to make the kind of alterations to their bodies that this bill would prevent. Allow them to make these crucial decisions as adults, there is a very good reason why children under 18 cannot make medical decisions.

Secondly, it is incomprehensible to use taxpayer dollars to cause harm to children.
