

ATTN: I Support Bill H-5351

February 24, 2025

To the Rhode Island State Legislature

My name is Aaron Ricci, and I am a proud resident of Rhode Island. I am writing to express my strong support for Bill H-5351, with a particular emphasis on the incredible impact it would have on my nurse injector, Lexi Revis.

I have had the privilege of being a patient of Lexi's for the past two years, and during this time, she has become not just my injector but a trusted professional who I rely on for my aesthetic treatments. I've followed Lexi from her previous spa to her current one because I value the relationship we've built and the exceptional care she provides. Her knowledge, skill, and dedication to her craft are unmatched, and I feel incredibly fortunate to have found someone who truly understands my concerns and aesthetic goals.

From our very first appointment, Lexi demonstrated an impressive breadth of knowledge about facial anatomy and the treatments available to address my needs. She takes the time to listen attentively to my concerns, develops a personalized treatment plan, and educates me on the nuances of each procedure. Lexi consistently follows up after every appointment to ensure I am happy with my results, always making me feel valued and cared for.

Lexi embodies all the qualities that make a nurse exceptional—intelligence, professionalism, focus, and compassion. These traits are essential to the safety and satisfaction of patients, and Lexi excels in each of them. I wholeheartedly support Bill H-5351. I support Lexi Revis. And I stand firmly behind nurses as aesthetic injectors.

If this bill is not approved, it would be devastating to not only lose the injector I have placed my complete trust in but also to know that countless nurses will be stripped of their careers. The impact on both the patients and the nursing community would be immeasurable.

Thank you for taking the time to consider my thoughts. The words I have to describe Lexi Revis could never fully express the immense respect I have for her as a nurse injector. She has my unwavering support, and I hope she will continue to be able to do the work she is so passionate about.

Sincerely,
Aaron Ricci
