Dear Steve Sepe,

I am writing in support of bill **H-5351** that propose all medical professionals and aesthetic professionals in Rhode Island may work and delegate to the full extent of their scope of practice.

The RIDOH is limiting access to the services I have been receiving from my current aesthetic practitioner. I have been told I will no longer be able to receive Botox, PRF and micro needling from my nurse practitioner and aesthetician.

I have been under the care of my nurse injector and aesthetician since 2016. I chose this particular practice through word of mouth from a friend that had been receiving treatments from this facility. The practitioners were always great and I felt comfortable with their knowledge of the industry and safe practices. I do not want to lose my right to choose my provider. I wish to continue to receive my aesthetic care at a medical spa from my RN and aesthetician. I do not want to be forced to drive to neighboring states to seek these services. Aesthetics is a fast growing, profitable industry that can strengthen RI economy, but current restrictions on scope of practice will drive it from our state. The RIDOH guidelines are limiting the growth of aesthetic medicine in our state without increasing safety.

Sincerely,
Alexandra McSparren
