Subject: Supporter of bill H-5351

Attn: Clerk Steve Sepe

It has recently come to my attention that new restrictions on medical spas are preventing nurses from providing cosmetic injections, microneedling, and laser hair removal. I strongly believe these services fall within a nurse's scope of practice when performed under the delegation of a nurse practitioner or physician, as is standard in other healthcare settings.

As a proud client of Citrine Aesthetics in Cumberland, Rhode Island, I have personally experienced the exceptional care provided by their skilled professionals. These restrictions not only impact the dedicated providers but also limit access to safe and high-quality aesthetic treatments for clients like myself.

I am writing in support of Bill H5351, which would allow nurses to continue performing these treatments within their scope of practice. I urge policymakers to support this bill to ensure that qualified medical professionals can continue offering these valuable services in a safe and regulated environment.

Thank you for your time and consideration.

Sincerely,
Amanda Martineau-Valpey
