To whom it may concern:

I am writing to you in regards to Bill H-5351.

I am a current patient of Mary Polizzi. She has worked closely with me over the years to help manage my melasma. Melasma has impacted my life in different ways, especially my self-esteem. I grew frustrated over the years, seeing many medical providers and other aestheticians before finally seeking out Mary. I fully trust Mary and her expertise and her knowledge has not failed me. She has provided me with regimens and treatments and clear expectations, ensuring my safety at all times along the way. I am forever grateful to Mary and I hope that this bill passes so Mary and other people like Mary can continue to help their clients who suffer from conditions that can affect their self-esteem and the sometimes-debilitating mental health issues that comes with it.

Thank You,
