Re: Support of Bill H5351

Dear House Health and Human Services Committee:

I am writing to express my unwavering support for Bill H5351 and Inspire Spa, a female-owned medical spa led by the highly skilled Nurse Practitioner, Pamela Lutes. As a member of our community, I believe it is essential to advocate for local businesses that not only provide valuable services but also empower women in leadership roles.

Ms. Lutes has a wealth of experience in the medical field, having dedicated years to her nursing career before becoming a Nurse Practitioner. Her extensive training and hands-on experience ensure that clients receive the highest standard of care in a safe and welcoming environment. At Inspire Spa, clients can access a variety of services, including aesthetic treatments tailored to meet their individual needs. On a personal level as a female physician, I have sought out the exceptional care of Ms. Lutes because of her breadth of knowledge and her elevated skill level.

One of the standout features of a well-established medical spa like Inspire Spa, is the ability for clients to choose their own practitioner rather than be limited to a few physicians providing the same services. Clients therefore feel empowered to select a practitioner whose expertise and communication style resonate with them, ensuring that they receive care that is both competent and exceptional.

Moreover, Inspire Spa serves as a beacon of inspiration for aspiring female entrepreneurs. By successfully navigating the challenges of the medical and beauty industries, Ms. Lutes exemplifies what it means to lead with passion and perseverance. Her success story encourages other women to pursue their dreams, breaking down barriers in traditionally male-dominated businesses.

In addition to providing exceptional services and empowering women, Inspire Spa contributes significantly to the economic landscape of our state. The growth of female-owned businesses is vital for fostering economic diversity and resilience, especially in today's economy. The client's autonomy to select their own practitioner leads to the essential competition within this field which makes Inspire Spa and other elite medical spas succeed. It is crucial to support establishments that prioritize patient care, empower women, and contribute to the local economy.

Thank you for taking the time to read this letter. I hope you will join me in advocating for Inspire Spa and other medical spas providing safe, high-quality care.

Sincerely,  
Bianca M. Carpentier, MD
