Subject: In support of bill H-5351

Dear Members of the House Health and Human Services Committee,

I'm writing this letter in support of bill H-5351, which would allow all qualified aesthetic nurses to continue providing care & services.

I have been working with my aesthetic nurse for over 15 years and I have always felt safe and informed with any of the procedures performed. She is constantly furthering her knowledge of current and new procedures with continuing education. I completely trust her suggestions and her ability to perform them.

If this bill was opposed, I would have to find another provider which would be time consuming and disruptive. I'm currently seeing a highly skilled aesthetic nurse that I'm confident in and honestly the only person that has touched my face. I would implore you to allow these highly trained professionals to continue to perform the skills they have mastered.

Thank you for your consideration.

Sincerely,

Christine King
