Clerk Steve Sepe
House Health & Human Services

Re: Support for Bill H-5351

Dear Mr. Sepe,
I am writing today in support for Bill H-5351.

After an initial consultation with aesthetician Mary Polizzi of Aspire Dermatology, I began a cosmetic treatment program with her. I think we'd all love to say that looks don't count, but they do. After dealing with acne as a teenager, I'd spent my adult life with scars, which definitely affected my confidence. With Ms. Polizzi's guidance and interest in improving my skin, I would be heartbroken to find her practice is in jeopardy. Ms. Polizzi and the service she provides has made me feel better about myself and how I look. I am not trying to look 20 years old; I just like feeling good in my own skin.

I would recommend Ms. Polizzi and the cosmetic dermatology services she provides without reservation.

Sincerely,

Donna Deandrea
