Subject: Support for Bill-H5351 Attn: Clerk Steve Sepe

Dear Members of the House Health and Human Services Committee,

I am writing to express my strong support for Bill 5351. I am supporting this bill because it will ensure that highly qualified aesthetic nurses can continue to provide exceptional care to patients like myself.

I have been under the care of my aesthetic nurse for well over ten years. I have witnessed firsthand the advancement of her expertise and extensive knowledge. Over the years, I have been actively involved in treatment planning, and very well educated on any procedures performed. I always feel safe in her care and I am fully confident in her training and ability.

Please pass this bill so that I can continue to have access to the high quality care that I and many others in the State of Rhode Island rely on.

If Bill-H5351 were opposed, I would be forced to seek another provider. I may consider treatment in another state. This would disrupt my care and would be completely disheartening and unnecessary due to the exceptional care that I am already receiving from my provider.

I urge you to support Bill 5351 to protect patient choice, continuity of care, and access to skilled aesthetic professionals. I believe this legislation is essential to ensuring that patients can continue to receive safe, and high-quality treatment from experienced providers that they trust.

Thank you for your time and consideration.

Sincerely,
Eileen Curran
