

2/24/25

To Whom It May Concern:

I am writing in support of companion bills H-5351 that proposes all medical professionals and aesthetic professionals in Rhode Island may work and delegate to the full extent of their scope of practice.

I have been seeing Tara Phelps, CRNA for over a year. She is kind, considerate, caring, and very professional. She has my best interest at heart and I always leave there feeling like I received the best care. She takes her time, listens to my concerns and explains everything before it is done and while it is being done. The spa atmosphere is relaxing and calming, which is in stark contrast to a doctors office. I went for a consultation at a doctor's office before beginning my care with Tara and the atmosphere was cold, sterile and felt like a factory. I leave Tara's office feeling relaxed and well taken care of.

I want to continue to receive care aesthetic care from my CRNA and, furthermore, I do not want to lose the right to choose who my provider.

Sincerely,  
Jennifer Rubino
