Subject: Support Bill H-5351

To: Clerk Steve Sepe

My name is Jeremy Sullivan, and I am a lifelong Rhode Island resident. I am writing in strong support of Bill H5351, which would allow nurses and aestheticians to perform delegated tasks under the supervision of APRNs and MDs.

I have been receiving medical treatments for my skin and wellness needs at Citrine Aesthetics in Cumberland, Rhode Island, and I trust these providers beyond compare. Their establishment is exceptionally clean, they prioritize safety, and they maintain the highest level of professionalism.

Previously, I was receiving microneedling treatments from these providers, but I was recently informed that they can no longer perform these services due to changes in state regulations. These treatments were making a significant difference in my skin, and I would like to continue seeing the qualified providers I trust.

Please support this bill to ensure that trained professionals can continue offering these valuable treatments and that patients like myself can receive the care we need.

Thank you for your time and consideration.

Sincerely,
Jeremy Sullivan
