Subject: Support for Bill H-5351

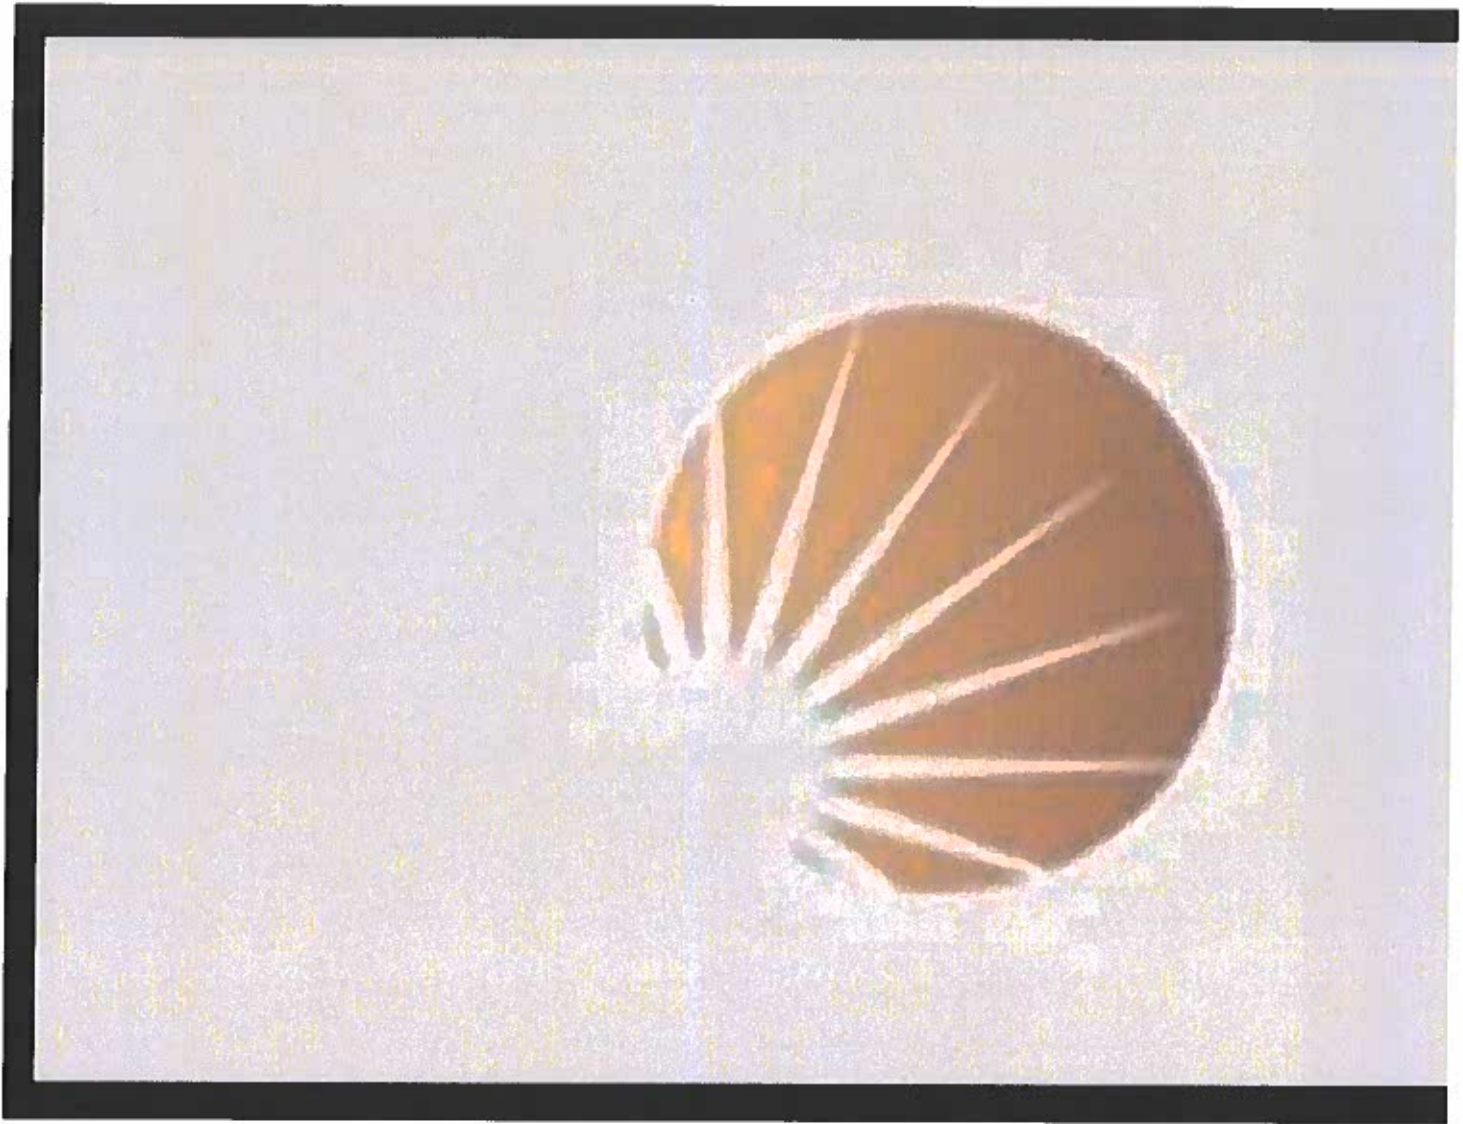

Hello,

My name is Josh Breggia and I am a resident of 7 May St. North Providence RI.

I am in large support of this bill to pass as I am an independent medical aesthetics representative for multiple medical devices that have been taken away from the mass majority of clients that I do business with. This has already impacted on my business and has put fear and hesitancy in my clients mind to invest in their business any further.

Joshua Breggia
