Subject: Support for Bill H-5351

Last year, I developed rosacea. I went to a dermatologist and was prescribed the incorrect medication. I reached out to Mary Polizzi, and she referred me to Rebecca Shea at Aspire Dermatology, who prescribed the correct medication so ending months of a traumatic loss of my self-esteem.

Over the last few years, Mary has raised my confidence enormously with all the treatments she has performed on me and her expert recommendations of products to improve my skin.
