Subject: Bill H-5351

Kara Carbone
Cumberland, RI 02864

To whom it may concern, I am writing in support of the proposed bill H-5351 that seeks to ensure continued care by a specific healthcare provider, particularly in situations where it would cause undue hardship for a patient to see another provider. As a patient who has received care from Amanda Trotter for 3 years, I can personally attest to the positive and beneficial impact this provider has had on my health and well-being. The consistency of care that I have received from Amanda has been invaluable. From the moment I began treatment, the care provided has been not only professional but also compassionate and personalized to my needs. I have felt heard, understood, and supported throughout the entire course of my care. The relationship that I have developed with Amanda has contributed greatly to my sense of security and trust in my healthcare. To disrupt this continuity by requiring me to see another provider would present significant challenges. Not only would it create unnecessary stress, but it would also risk interrupting the level of care that I have become accustomed to. I am confident that transitioning to a different provider would impede my progress and overall health management. For these reasons, I strongly urge you to consider the positive impact that this bill would have on patients like myself. Allowing patients to continue receiving care from trusted providers, particularly when they are experiencing good outcomes, is essential to fostering better health both medically and psychologically. Thank you for your attention to this important matter. I appreciate your time and consideration of my support for this bill. Sincerely,

Kara Carbone
