To Whom It May Concern,

This letter is in reference to and ruling in favor of Bill H-5351.

I have been a patient of Mary Polizzi, LMA for approximately 15 years. I met her when she practiced at Saybrook Dermatology in Old Saybrook where she helped me through a skin condition which greatly affected my self-confidence. , CT. When she left the provider in Essex and moved her practice to Westerly, RI I followed her. I followed her to Aspire Dermatology in Warwick, RI to continue maintenance on my condition. I drive 100 miles round trip and take 4 hours off work to see Mary. I do this because I trust her. I do this because Mary's quality of care has made life altering changes for me. I do this because who I choose for my medical care should be my decision.

Should Bill H-5351 not pass, I would urge all Rhode Island residents to choose (medical aesthetic) care outside of Rhode Island.

If you have any questions, I would be happy to discuss them at the above address or phone number.

Sincerely,

Karen Fulton
