Subject: Support for bill H-5351

Hello,

I am in full support of bill H-5351. I currently practice at a clinic in Warren, RI. We provide safe, evidence based care. If this does not pass, as an NP this threatens a job I have proudly had over the last 5 years, it threatens my livelihood. RI would lose an NP to then practice in another nearby state like many others would.

Thank you
