To Whom It May Concern,

I am writing this letter in support of bill H-5351, that proposes all medical professionals and aesthetic professionals in Rhode Island may work and delegate to the full extent of their scope of practice. If this bill does not pass, I would be greatly affected. I work at Skin Society RI and if this bill does not pass I could lose my job, the one I worked so hard for and am so passionate about. I truly believe that you should be able to have a choice in your aesthetic provider. I also think that the RIDOH guidelines will limit the growth of aesthetic medicine in our state, which is an extremely fast growing, profitable industry, and it does not increase safety. I think that these restrictions will drive aesthetics away from our state.

Thank you,

Madison Plouffe
