**Subject:** Support for H-5351 (ATTN STEVE SEPE)

**Date:** February 23, 2025

### **To Whom It May Concern,**

I am writing to express my strong support for companion bill RI H-5351, which proposes that all medical and aesthetic professionals in Rhode Island be allowed to practice and delegate to the full extent of their scope of practice.

### **My Experience:**

I have been under the care of my current provider for four years, choosing both my provider and the medical spa based on their expertise, proven results, positive referrals, and solid reputation within the community. I am drawn to the facility not only for its safe, clean atmosphere but also for the professionalism and knowledge demonstrated by the entire staff. Every provider I have interacted with has an extensive background and training, and I always feel confident in their care and advice.

Having received aesthetic care for over a decade, my experience at Radiant Aesthetics over the past four years has been exceptional. Their holistic, yet medically sound approach has made them my go-to choice, and I continue to return because of the individualized, thoughtful care they provide.

### **Why This Matters to Me:**

My provider always takes the time to meet with me personally, addressing any questions or concerns I have. My treatment plan is always customized to my specific needs, ensuring that I feel heard and respected.

I am deeply concerned and disheartened by the potential loss of access to my chosen provider. I have no desire to be forced to seek care elsewhere when I am so happy with the services and the expertise I receive at Radiant Aesthetics, particularly from my chosen Nurse Practitioner.

### **In Conclusion:**

I firmly believe that all patients should have the right to choose their medical provider based on personal comfort and trust. Restricting access to licensed, experienced professionals would be a disservice to both the medical aesthetic community and the patients they serve.

Thank you for considering this important matter. I urge you to support RI H-5351 to ensure that patients continue to have the freedom to choose their preferred provider.

Sincerely,

Melanie Seddon
