Subject: Support for Bill H-5351

Dear Clerk Steve Sepe,

I am writing to express my strong support for Bill H-5351, which is crucial in protecting the rights of highly skilled medical professionals like myself. As a dedicated nurse practitioner with over five years of experience, I have had the privilege of advancing my career in the aesthetic specialty. Throughout this journey, I have been fortunate to work alongside incredible providers and care for patients who trust in my expertise.

However, if this bill does not pass, I risk losing the ability to practice in my specialty, which would not only impact my patients but also have severe financial consequences for my family of six. Like many other healthcare professionals, I have invested significant time, education, and resources into building my practice to provide safe and effective care. Restricting nurse practitioners from continuing in this field would limit patient access to quality treatments and hinder professional growth within the industry.

I urge you to support the passing of Bill H-5351 to ensure that nurse practitioners can continue to contribute to the healthcare system, maintain their businesses, and provide for their families. Thank you for your time and consideration. I appreciate your dedication to making informed decisions that benefit both healthcare providers and the patients we serve.

Sincerely,

Noelle Fiontella

MSN, APRN, FNP-C
