---

Dear House Health and Human Services Committee,

I am writing to express my **strong support for Bill H-5351** as the **owner and financial controller of a locally owned and operated medical spa**. This bill is vital to the continued success of our business, our employees, and the patients we serve.

My wife, a **dedicated nurse practitioner**, plays an integral role in our medical spa. Through her expertise, she provides high-quality aesthetic treatments that not only enhance confidence but also support the well-being of our clients. The passing of this bill ensures that she, and others like her, can continue to practice and support their families through their profession.

Without Bill H-5351, we face the real possibility of losing access to essential providers, limiting patient options, and ultimately jeopardizing our family's livelihood. We have invested countless hours and resources into building a reputable, community-focused practice, and this legislation is crucial to maintaining that foundation.

I urge you to **support Bill H-5351** to protect small businesses, ensure patient access to skilled providers, and safeguard the jobs of countless hardworking professionals in our industry.

Thank you for your time and consideration.

Respectfully,

Russell Henry
