Subject: RI House Bill 5351

Dear Members of the House Health & Human Services Committee,

I am writing to express my strong support for House Bill 5351, the Medical Aesthetic Practices Safety Act. This legislation is a crucial step toward ensuring that cosmetic medical procedures in Rhode Island are performed by qualified healthcare professionals, thereby enhancing patient safety and care quality.

As an employee in the state and licensed by Rhode Island Department of Health I believe that all individuals seeking cosmetic procedures deserve the assurance that their treatments are preformed by trained and competent practitioners.

By mandating that these procedures be performed by a physician, physician assistant, advanced practice registered nurse, or a qualified non-physician under appropriate supervision ensures proper care. I urge you to support the passage of House Bill 5351 to safeguard the public health and protect the well-being of all that come to Rhode Island for treatment. Thank you for your attention to this important matter.

All the best,
