To Whom It May Concern,

Upon learning about the proposed bill, I felt compelled to express my support for the skilled and qualified aestheticians who provide essential skincare services, including those I receive. For over 15 years, I've relied on Mary Pelozzi for a range of treatments that have significantly boosted my confidence and, in turn, improved my quality of life. I am not willing to switch to a new provider when I have complete trust in Mary's expertise and judgment.

This bill seems entirely unreasonable to me, as it could potentially force hundreds of practitioners out of business and push clients into an already overburdened healthcare system for cosmetic needs. I urge you to reject this bill and focus on issues that truly require attention and action in today's world. There are certainly more pressing matters that deserve our collective effort.

Respectfully,

Sharon Morgan
