To whom it may concern,

I am writing to give my fervent support for the Medical Aesthetics Practices Safety Act. I am a patient under the care of Jana Magarian NP for the past 5 years. I value her care and expertise both in general health and in skin condition management .

I urge you to protect the rights of nurse practitioners like Jana by supporting this bill.

To do otherwise will compromise my access to health care .

I really appreciate your consideration to this very important matter.

Best,
Steve Morse
