The Honorable Members of the Rhode Island General Assembly  
State House  
Providence, RI

Dear Members of the Rhode Island General Assembly,

I am writing to express my strong support for Bill RI H-5351, which seeks to allow all medical and aesthetic professionals in Rhode Island to work and delegate to the full extent of their scope of practice. As a patient who has been under the care of a nurse practitioner, Jana Magarian, for 10 years for rosacea, melasma and sun damage, I have experienced firsthand the exceptional care and expertise that my nurse practitioner provides.

Rhode Island is fortunate to be a full practice authority state, allowing NPs to operate independently without unnecessary supervision. This autonomy has enabled my nurse practitioner to deliver timely and effective treatment, improving both my health and quality of life. However, I am concerned that restrictive interpretations of guidelines could jeopardize access to this care. Limiting nurse practitioner's ability to practice fully would not only disrupt continuity of care but also reduce access to affordable, high-quality healthcare for many Rhode Islanders.

Jana is an incredibly skilled and knowledgeable practitioner who is always available when I need her. I have come to rely on her expertise over the years, and I trust her implicitly. It would be a huge loss to me personally and to the Aquidneck Island community if she were no longer able to provide care in the quick and reliable manner that she currently does, while also keeping her services affordable.

I urge you to pass this bill and maintain Rhode Island's leadership in promoting accessible and efficient healthcare. Patients like me depend on the expertise and autonomy of nurse practitioners and other professionals who are committed to improving our lives.

Thank you for considering this important legislation.

Sincerely,  
Tara Winston
