To: House Health and Human Services Committee
Subject: Support for H-5863

Dear Chairwoman Donovan and Members of the House Health & Human Services Committee:

Please consider this communication in **strong** support of House Bill 5863 requiring commercial health insurance companies to raise reimbursement rates for in-network outpatient behavioral health services. The mental health services supported through these insurance benefits are critically important to Rhode Islanders especially our children and our most vulnerable citizens.

Thank you for your support of this legislation and for your work on behalf of the citizens of our communities.

Sincerely,

Dr. Margaret Paccione
