

Testimony in support of H6305: Lead Poisoning Prevention Act

Dr. Hans Scholl, 71 Fales Avenue, Barrington, RI 02806

Date of Hearing: May 13, 2025

To Chair Donovan and the honorable Members of the House Health and Human Services Committee:

I support the bill because it will allow identifying and treating children with elevated lead blood levels, and generate data to prioritize lead pipe replacement based on measurement of blood levels, which seems more meaningful than following a “shotgun” approach.

Please bring the bill to a vote in 2025.

Thank you very much for considering my input, and thank you to Representative Phillips for introducing this important bill.

Dr. Hans Scholl
